

Create a WBS with Xmind

(1) Set task workloads in “Labels” with <F3> key. You need to type id of actor and workload. For example Alice 7d, for Alice working 7 days

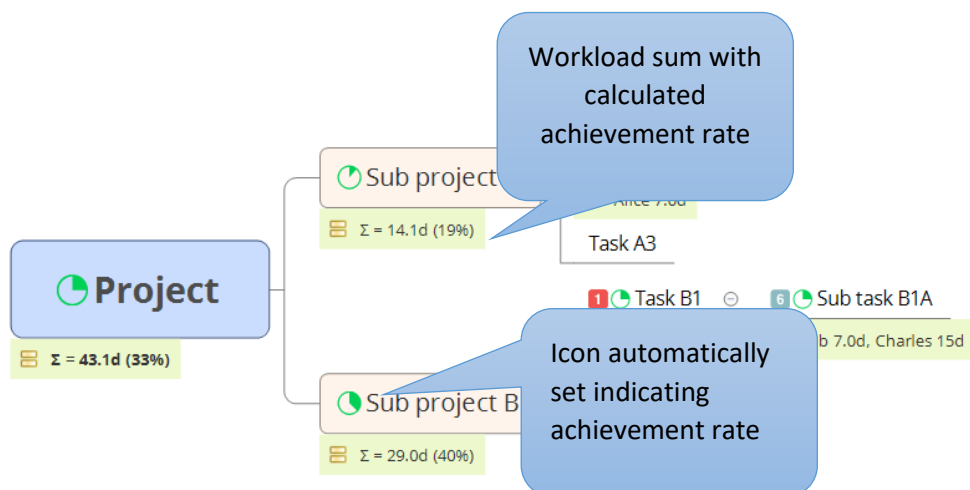

(2) Set completion rates with task completion icons (like  for example)

Click on Consolidation icon

WBS is now consolidated

Stop consolidate

If you click again on , you stop consolidate mode. All sums are removed

Add a day to workload of a task

Type <CTRL> <UP KEY>

Subtract a day to workload of a task

Type <CTRL> <DOWN KEY>

Change letter indicating a day

Go in preference menu
